- Double decker edge
- Coping anti-rub strips
- UV resistant material
- Bio-shade technology
- 1" polypropylene webbing
- Solid cover with INVIS-A-DRAIN™
- Interlocked, double overlap seams

**EXCLUSIVE FEATURE**

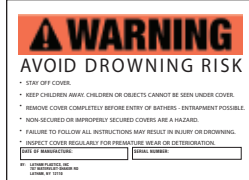

### Beware of Imitators

Insist on an Extreme Safety Cover™ to ensure the quality that you expect from Fort Wayne Pools®. This feature will not be available on any in-stock covers.

### Make Safety A Priority!

Remember, while covers are designed and used for safety and maintenance devices, it is recommended that covers are not walked on for any reason.

### IMPORTANT!

"No Diving" signage is a component of the swimming pool and must be installed on the coping around the perimeter of your pool. "Caution" signage also must be affixed to the steps.

As members of APSP, we would like to inform you of several publications that you may wish to request from APSP: "The Sensible Way to Enjoy Your Inground Swimming Pool"; "Children Aren't Waterproof"; "Pool and Spa Emergency Procedures for Infants and Children". These publications can be ordered from the APSP by calling or writing them at The Association of Pool and Spa Professionals, 2111 Eisenhower Avenue, Alexandria, VA 22314, 800-323-3996. Or visit the APSP consumer web site at [theapsp.org](http://theapsp.org).

Protect your *family*  
and your *investment!*

We designed our Extreme Safety Covers to protect both your family and your pool.

Our pool covers are manufactured to your specific pool size and shape. The Extreme Safety Cover will help prevent accidental intrusion into your pool by children and pets when properly installed. We put safety first by manufacturing a high quality, durable cover constructed for optimum performance – backed by the Extreme Safety Cover 15-Year Warranty.

The Extreme Safety Covers are available in four material choices: ProTex™ Mesh; Bio-Shade™ Mesh; LitePro™ 7oz. Solid; and our Heavy-Duty 12 oz. Solid.

You'll reap the benefits of a solid cover, with the ease and handling of a mesh cover when you choose our ProTex Mesh safety cover material.

Manufactured with a new light and tight woven material, ProTex Mesh safety covers are designed to allow water through for drainage and safety while keeping sunlight and debris out for ease of maintenance and peace of mind.

Available in green.

Heavy-Duty Solid safety covers stand up to whatever mother nature can dish out. Our Heavy-Duty Solid safety cover material will completely block out all of the sun's rays.

It is one of the industry's most durable covers and comes standard with the INVIS-A-DRAIN™ system, keeping all the debris and sun's rays out, allowing only water to pass into your pool.

Available in green and blue.

A customized engineered mesh designed to inhibit the growth of algae in your pool.

A durable long lasting polypropylene mesh material with built in durability and strength to protect your family and your investment.

Available in green and blue.

Lightweight LitePro Solid safety covers are about half the weight of our Heavy-Duty Solid cover.

Our LitePro Solid safety cover will block out all of the sun's rays, yet the lightweight material allows for easy installation and removal.

Available in green and blue.

LitePro Solid  
(7 Oz.)  
Available in Blue and Green

Original Solid  
(12 Oz.)  
Available in Blue and Green

**A cover is only as strong as its seams**

Extreme Safety Cover™ seams are interlocked and double overlapped for optimum strength. *This seam is the foundation of the Extreme Safety Cover™.* No other manufacturer offers this feature.

**Custom heavy duty hardware for a tighter fit**

Heavy duty stainless steel double-coil springs, with D-Rings for ease of installation and adjustment. They have a lower profile – so covers lay flat and fit tight when properly installed — whatever the shape of the pool. Standard on Heavy-Duty Solid Covers.

**Our double decker edge**

A potential trouble spot for pool covers is the perimeter – where they can fray and unravel. The Extreme cover is first hemmed, then sandwiched between double layers of webbing. Edges can't unravel, you get years of trouble-free performance.

**Reduced Deck Mount™ System**

Easy installation around raised walls, water features, spas and other deck accessories. Designed to maintain a tight cover fit. Perfect for narrow pool decks. All stainless steel hardware with brass anchors. No other manufacturer offers this feature.

**Built to last**

Excellence shows in the details. Like box tack reinforcement on all perimeter straps. Protective pads positioned at step nosings to prevent abrasion. And added protection on every component including the thread to resist ultra-violet rays and pool chemicals. Plus, it comes with a 15-year warranty.

**Solid Cover with optional pump**

Use of a weighted cover pump to immediately pump off all standing water, such as rain or melting snow will maintain all applicable safety standards.

**Won't rub your pool the wrong way**

Coping anti-rub strips protect your cover without making marks or scars – keep your pool and cover looking new for years.

**Solid Safety Cover with INVIS-A-DRAIN™**

1/4" drain holes are located every 6" in reinforced vinyl, down the center of the cover. Beneath is a 12" wide mesh drain filter panel designed for easy cleaning. No other manufacturer offers this feature.

When it comes to safety... get **EXTREME!**
